

Le Grand Jeu

elegantly simple in its design, remarkably complex in its mechanics

by Fredd & Raffa
legrandjeu.net

Le Grand Jeu

Le Grand Jeu does not have a message to deliver,
does not impose any alignment to the players and
does not provide clear victory rules.

Like in real life!

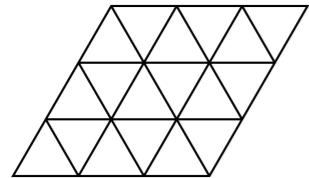

Le Grand Jeu is a future-thinking game
that allows to set a situation
where different conditions are simulated and concepts emerge from doing
where players are peers and all languages intermix

.... and stories emerge

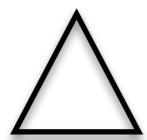

THE PHYSICAL WORLD

THE BOARD

The Grid: The playing surface consists of a diamond shaped board.

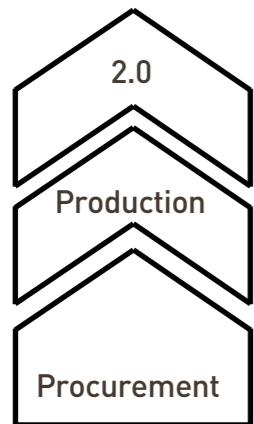

THE LAND

Your land that you place on The Board, on or off the grid, and on which you can build

THE FUNCTIONAL WORLD

THE ELEMENTS

Elements are organised on 3 levels: procurement, production, 2.0.

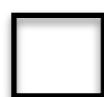

Element can be combined in lines of production, individually or cooperatively or under any other form of agreement

THE SHADOW

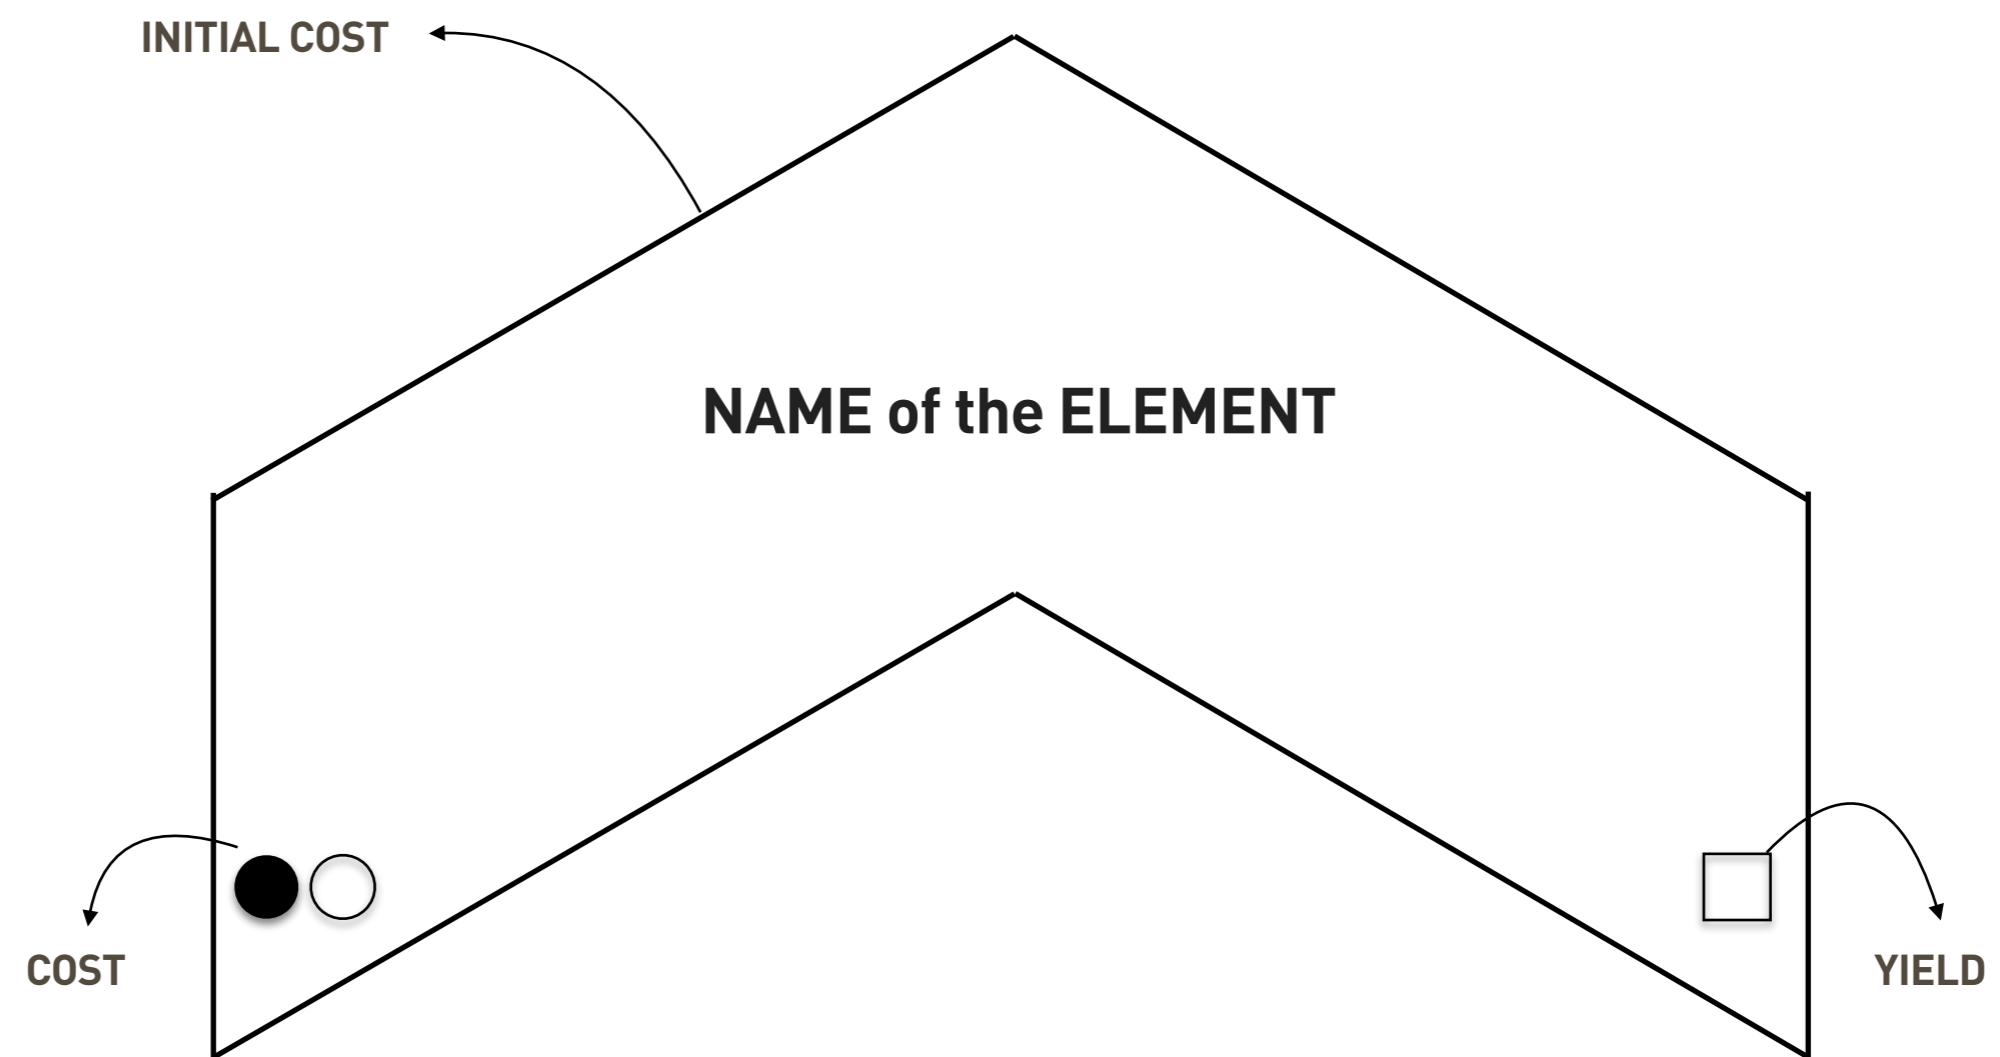

Blacks and whites: the currency of the game translating wide concepts like white: money, cryptocurrency, resources, knowledge, etc.; black: pollution, loss of biodiversity, bad karma, depletion of resources, raise of entropy, etc.

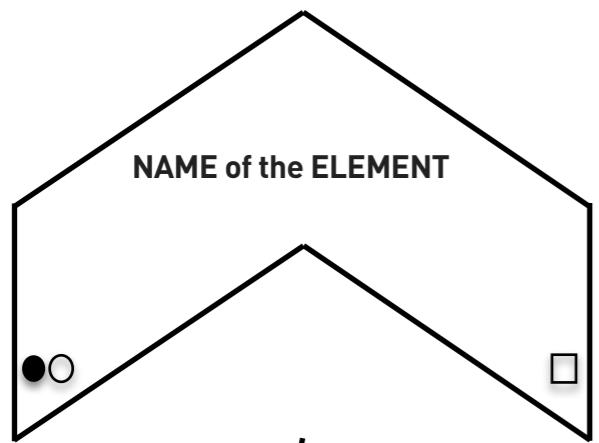

THE FORTUNE

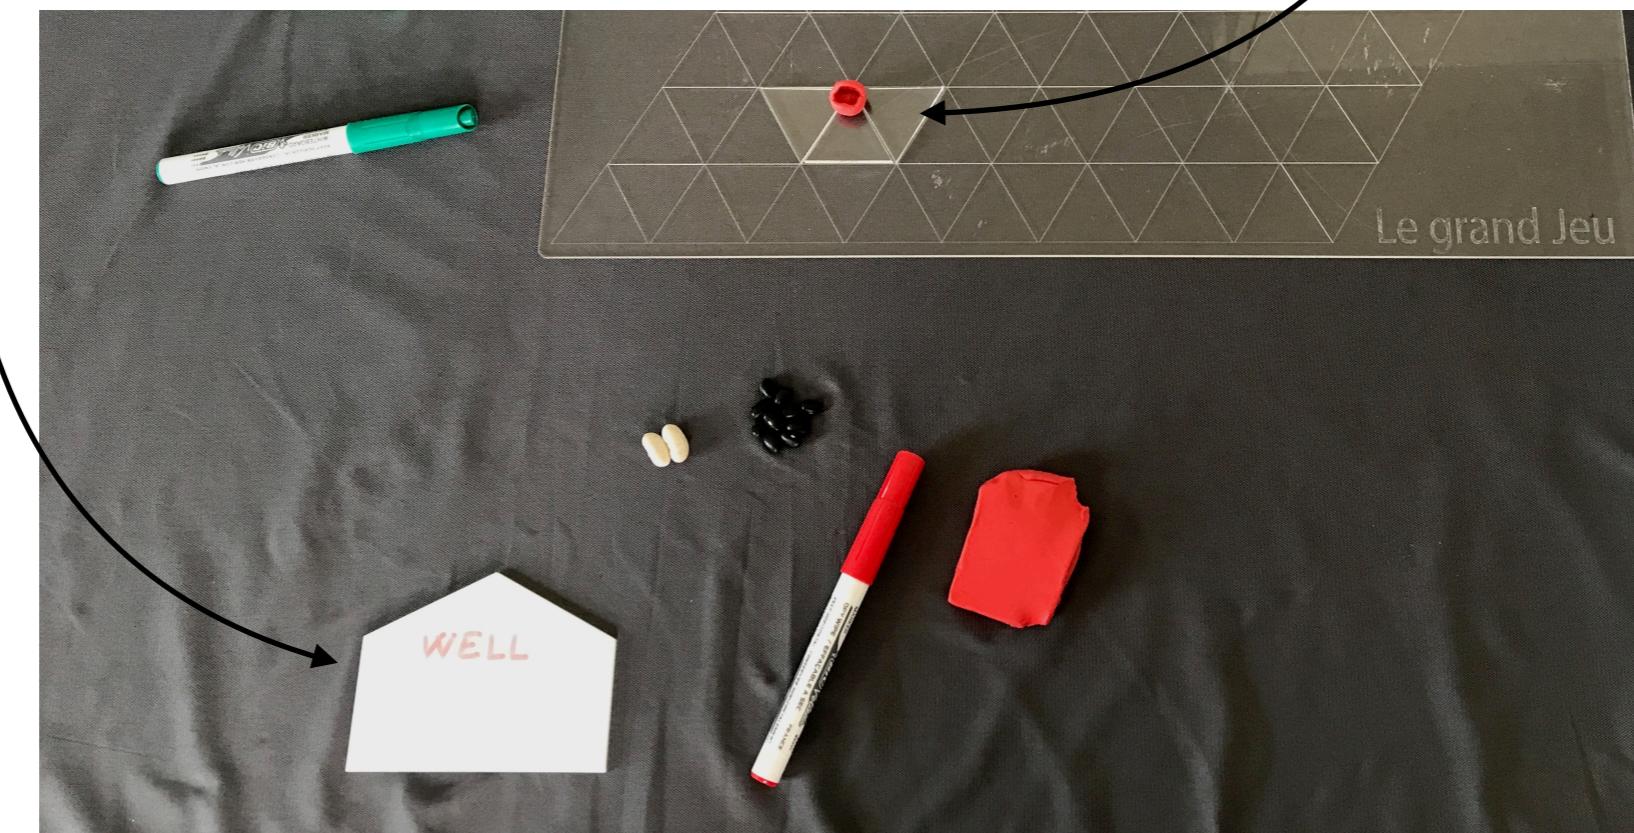

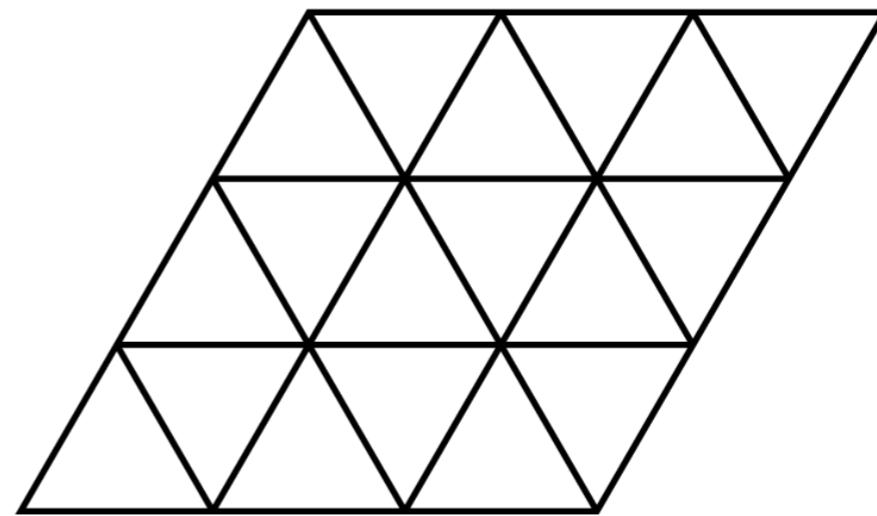

Played by the Master

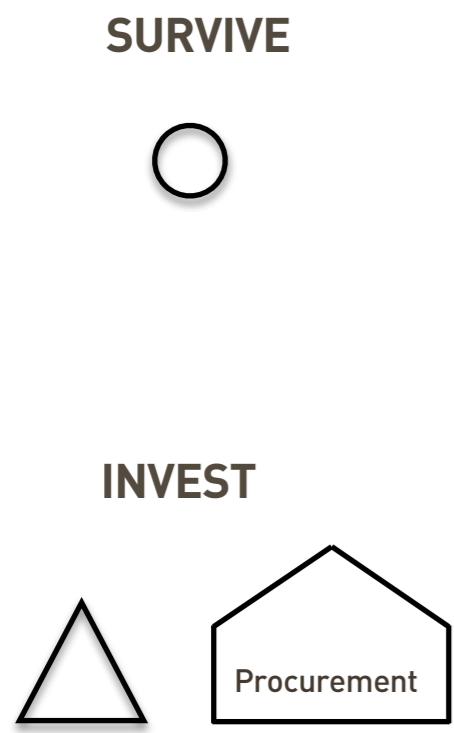

Functional ELEMENTS in front of you

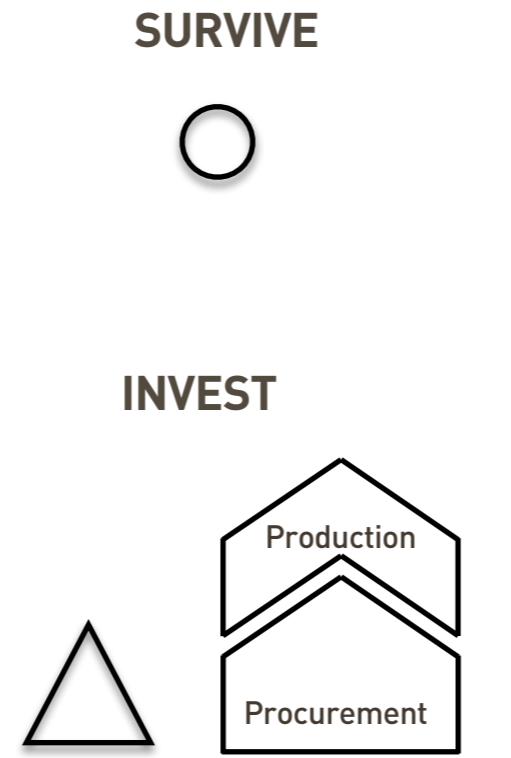

Physical ELEMENTS on the BOARD

STEP 1

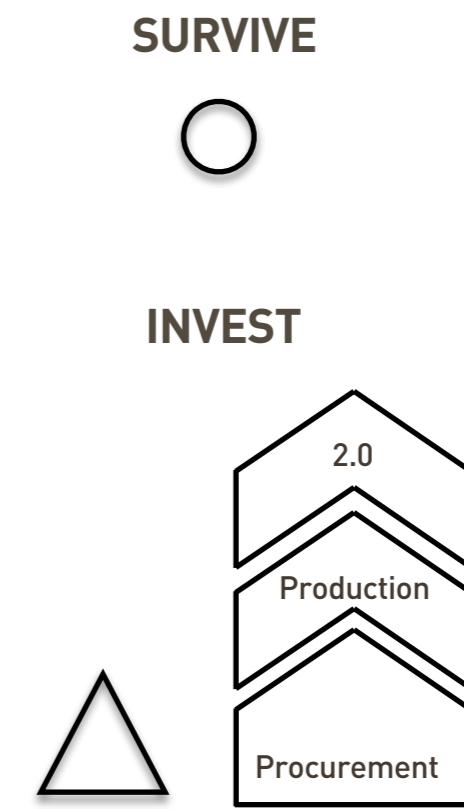

STEP 2

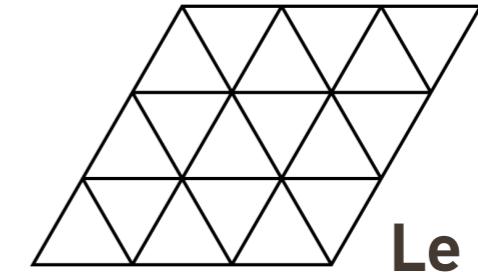

or CALL the ASSEMBLY

STEP 3

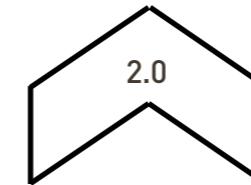

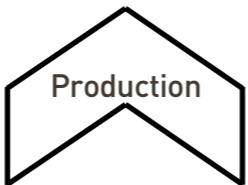

or CALL the ASSEMBLY

Le Grand Jeu

Example of Elements in the ENERGY field

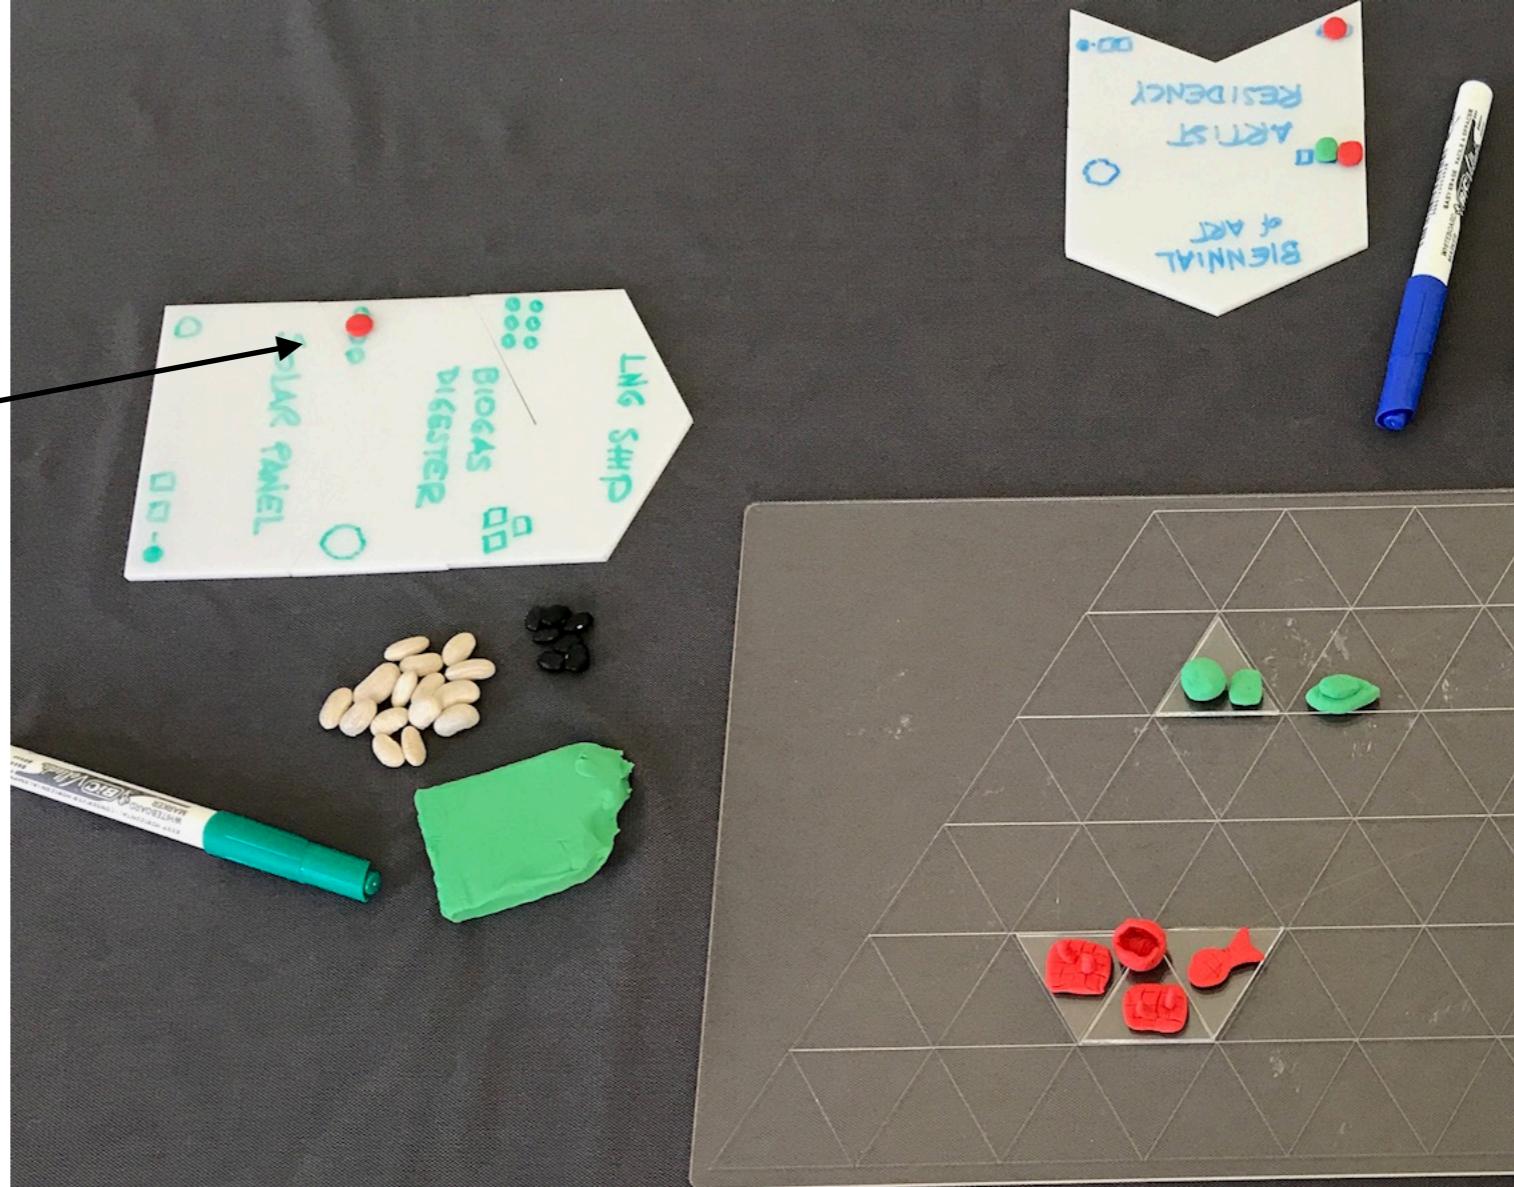

COST

YIELD

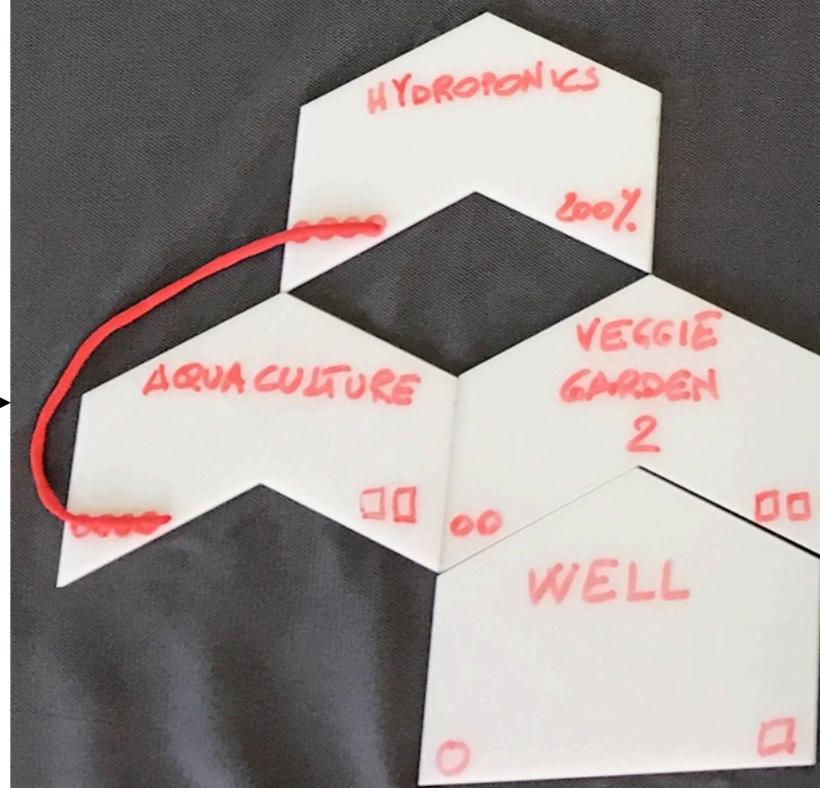

Photovoltaic					●●●●●	■■■ - ●
Fossil fuel plant					●●●●●	■■■
	wood	Biomass plant			●●●●●	■■■
	dam	Hydroelectric			15 ● 3 ●	■■■■■ - ●
				Combined Heat+Power (CHP)	●●●●●	50 %

Transactions between players

-> smart contracts

Circularity

Notes for Master

From "grand Jeu" table

1 Internet blackout

2 Pandemic

3 Banks close down

4 General Strike

5 Referendum

6 Killer Drones

7 War on prices

8 World Wide Festivity

9 Xenophobia

10 Big Works

11 Free Internet access and end of the net neutrality

12 Basic Income

13 The Communists take power

14 Terrorist attack

15 New Water is found

16 Robots work for you

17 Big Event

18 Mass extinction

19 Global Warming

From Neighborhood

1 Taxes

2 A gipsy camp settles on your land

3 cultural center in your land

4 you get depression

5 basic income

6 pests in your garden

7 a new mall opens in your area

8 they find out you gave your friend in

9 cold winter halves your energy intake

10 you don't eat the alarm. Miss a round

11 you fall in love

12 goats destroy everything

13 flood

14 you learn to fly

15 new facilitations for wind plants

16 Amy Winehouse lives again

Land tax - Off the grid is cheaper
Transport - Pay in function of the distance
